FOREWORD

I am delighted to present the 2020 Budget. It is unique in some ways, being presented not at the beginning of the fiscal year but in the third quarter with barely four months left before the fiscal year ends, and the amount to be appropriated by Parliament does not include the budgetary provisions for the whole of January and part of February.

Budget Theme

The Theme for this Budget is: '*Elevating Kiribati to Greater Prosperity*' which speaks for itself and captures the spirit of our collective vision, that, together, we can overcome our seemingly insurmountable challenges. Kiribati has been a conservative, understated and, sometimes, unappreciated, small, isolated Island Country in the Pacific.

We acknowledge that after 41 years of Independence, we are co-owners of our national destiny, to lead Kiribati to greener pastures, not necessarily abroad, but also on our own shores and within our borders, and to elevate it to a higher level of accomplishment and prosperity.

This 2020 Budget has been revised and improved upon, following the re-election of His Excellency Beretitenti Taneti Maamau and his Tobwan Kiribati Party (TKP) cohorts to a 2nd term in office.

The design and development of the 2020 Budget has been underscored by a great inspiration and hope, that we, as a country, are on the right path to lifting ourselves higher without leaving anyone behind!

Budget Context

With the COVID-19 pandemic wreaking havoc on the world's economy, in turn, affecting our small and fragile economy - we toil together in solidarity and harmony for our Kiribati citizenry and democratic system of government to prevail over these challenges and achieve our vision and goals.

This budget is therefore set against the unavoidable and significant influences of the global economy on our national budgetary planning and economic performance.

According to the International Monetary Fund (IMF), global growth is projected at -4.9% percent in 2020 (1.9 percentage points below the April 2020 World Economic Outlook (WEO) forecast). The COVID-19 pandemic has had a more negative impact on activity in the first half of 2020 than anticipated, and the recovery is projected to be more gradual than previously forecast. The adverse impact on low-income households is particularly acute, imperilling the significant progress made in reducing extreme poverty in the world since the 1990s.

Based on IMF's report on Kiribati, issued in January of this year, our economic growth would be stagnant, i.e. 0.0%, down from the 2019 projection of 2.3%. With planned heavy investments in infrastructure and social services in 2020, I believe that Kiribati's GDP is likely

to grow but only slightly. In addition, Inflation for 2020 is forecast to decrease marginally to 1.8%.

Achieving fiscal sustainability remains a challenge given our heavy dependence on fishing revenues which account for about 70% of total income. The volatility in this revenue item is an issue for us so it is important that we take other precautionary steps to forestall the adverse economic outcome predicted for 2020. Timely support to economic activity, where needed, to address financial vulnerabilities that pose risks to growth is advisable and should remain an overarching goal. This has been taken into account in preparing this Budget.

The 2020 Budget

The 2020 National Budget is a moderated and visionary one, reminiscent of our fiscal expansionary journey over the last four years, and one that attempts to also strategically pivot the nation towards greater coherence, greater inclusivity, and, at the same time, greater transparency and greater efficiency with a more fundamental focus on Government system improvement that we lead ourselves, and not by outsiders.

As a matter of record, the 2020 Budget met with utter frustration at the 13th Meeting of the 11th House in November 2019 when it was rejected by the majority of Members. It is my obligation as Finance Minister to re-table the Budget in this Budget book for another deliberation by Parliament, with the hope that it will now meet with reinvigorated insight, sobriety and approval.

Overall, the 2020 key budget features are:

Sustainable Deficit Financing

- Structurally sound fiscal deficit of \$36.9m, not dissimilar to other countries in the world that are currently fiscally challenged.
- The fiscal deficit is 14% of the total 2020 recurrent budget of \$260.1m, also contains one-offs which should normalise as fiscal pressure abates when borders re-open.
- Government cash balances as of 13 August 2020, of \$422.9m, and the 2019 budget surplus provide ample deficit cover.

Targeted Expenditures for Rapid Post-COVID Recovery

- Expenditures while increasing by 29% compared to 2019, also contain one-offs, which should normalise once COVID subsides.
- Departmental Expenditures budget allocation of \$120m is made up of Personal Emoluments budget of \$85m and Operating Costs budget of \$35m.
- These one-offs include expenditures to strengthen essential services delivery capacity with the addition of 16 teachers to be recruited for Mission High Schools for MOE and an additional 51 nurses for MHMS, as well as elections and census, which will be completed in this fiscal year.
- This budget also includes \$13.5m for COVID-19 Relief Packages for Unemployment, Food Buffer, SOE and Private Sector Support.
- Savings of \$1m are also factored into the budget from external travel.
- Other Commitments budget of \$72.6m is mainly driven by social protection nets for Unemployment Support (\$20m), Senior Citizens' Support (\$12.4m).

- Debt Servicing budget is \$3.2m.
- Local Contribution to Development Fund (LCDF) budget is \$64.2m.
- Copra has a budget of \$16m in 2020 based on the price of \$2.00 per kilogram which the Government has decided to maintain until the end of the fiscal year.
- Ministry budget concentration remains with four Ministries totalling \$70m or 27% of the total 2020 recurrent budget. These are Education \$29.4m; Health \$25.2m; Police \$9.8m; and Employment and Human Resources, \$5.5m.

Revenue

- 2020 budget revenue estimates remain very conservative set at \$209.2m (excluding budget support), driven by total taxation revenue budget of \$49.0m and \$150.1m budgeted for fishing revenues.
- Revenues are forecasted to increase by \$19.5 m or 10% over the 2019 total revenue estimate.

RERF

- The RERF balance as at 31 July is \$1.155 billion while the full year forecasted value is \$1.157 billion. Not a cent has been taken from the Fund and it seems that it will continue to grow in the short to medium term despite the global economic downturn.
- As I promised in my maiden budget speech of 2016, this Government had established a rule-based drawdown policy to ensure the RERF benefits all generations of I-Kiribati. That rule would see the Fund sustaining its current value and an annual growth of not less than 5% (adjusted for inflation). Any excess over this real growth rate can be withdrawn to finance strictly infrastructure development programmes. The investments would mean double benefits for future generations who would inherit both the durable physical infrastructure and cash.
- There will still be no drawdown in 2020 from the RERF to finance the budget. With the implementation of major development projects and revenue-generating policy initiatives, the fiscal position should return to positive.

Way Forward

Given the volatility in fishing revenues - which account for 70% of our total revenue - and Kiribati's susceptibility to climate change related shocks, budget decisions need to be taken in the context of a medium-term fiscal framework with prudent assessment of spending goals, revenue projections and wealth management targets. This framework should embed adequate fiscal buffers which would likely imply saving much of the fishing revenue windfall.

Further strengthening the RERF would also support the fund's capacity to provide sustainable future income for intergenerational equity.

Importantly, we need to continue to explore options to diversify and broaden our revenue base to protect the government's bottom-line from shocks and unexpected shortfalls from fisheries. The additional revenue sources being considered and/or worked upon are the return of Kiribati upper space, bunkering and the maximisation of revenues from fisheries through, for example, the purchase of government's shares or stakes in major multinational fish processing companies.

We had already approached some of our development partners to assist us better manage our fisheries resources and to help us identify options that will afford us a better return from this resource. One such option is the adoption of a catch-based management system and the application of a capitalisation method to fisheries revenue.

Deep sea mining is another potential revenue-producing option that has also been explored.

Additionally, the impending operation of Kiribati's own aircraft internationally and the strengthening of internet connectivity through the laying of fibre optic cable may contribute significantly to the development of tourism and export of our marine products to international markets. This will provide a significant revenue source in terms of foreign exchange and taxes.

On the expenditure side, we will continue to review and control certain expenditure items that are wasteful and non-productive. This will be done without compromising the operational efficiency of the public service and the effective delivery of essential public services.

It is important also to harness and further strengthen public-private partnership and collaboration with the private sector with the view to engaging the private sector more actively, especially in those areas where it clearly has a comparative advantage. This will help reduce the burden of the government, thereby allow the government to focus on its core activities.

We hope and trust that the people of Kiribati will, through this Budget, realise that this Government remains firm in its developmental focus and commitment to large investment projects that will be game-changers boosting Kiribati's future development, as alluded to by the Theme of "Elevating Kiribati to Greater Prosperity."

BUDGET METHODOLOGY

This 2020 budget is set against a complex landscape as a post-election as well as a post-covid19 recovery budget. Of note is that the original 2020 budget was first tabled in November 2019 and not being passed, is now being re-tabled for the second time as a revised 2020 budget.

Budget Periods and Scenarios

This budget is also very unique in that it consolidates Government fiscal positions in three main periods, January 2020 (1-month budget) funded by bridge financing; February to September 2020 (8-month budget) funded by the constitutional provision triggered by the notice of election; and the fiscal period from October to December 2020. In determining the revised 2020 annual budget, the year to date actuals have been taken for the 5 months from January to May 2020.

The revised 2020 budget assumes two economic scenarios in relation to covid;

- i). The first, is that borders will remain closed until the end of September 2020, after which borders will open and we will be able to resume fourth quarter (4Q20) economic activity.
- ii). The second, more conservative scenario is that borders will remain closed until the end of December 2020, therefore any meaningful economic recovery from border re-opening will only take place from the first quarter of 2021 (1Q21).

Ministry Budgets

Ministry 2020 budgets are based on 2019 actuals, and year to date actuals to May 2020, with revised budget estimates for the rest of the fiscal year. The usual practice to apply a blanket 2.5% increase on expenditures adjusted for one-offs has not been applied in this instance as there is already a 5-month actual expenditure pattern, hence the run-rate was adjusted for actual forecasts to the end of the year.

Budget Consultations

The National Economic Planning Office (NEPO) strengthened budget partnership consultation with each Ministry, to create more transparent budgeting process, ensure standard budgeting practices and capacity across Government, understand drivers of each Ministry's operational budgets and activities in order to drive more prudent fiscal management. Robust budget committee deliberations in 2019 highlighted the following observations that have led to ongoing budget enhancements:

- On expenditures, cost creep is being observed from Ministries operational expenditure outlooks. Efforts to improve analysis of cost concentrations are ongoing.
- The other critical observation is that the budgeting focus has traditionally leaned towards the expenditure budget, without commensurate focus on revenue budget. Clearer distinction is made in the revenue tables on taxation, fisheries, investment and other

ministry revenues, excluding budget support. Efforts to improve revenue analysis with a focus on revenue growth are ongoing.

- Another area of ongoing improvement is the linking of medium-term budget forecasts in the budget to the financial projections in the national and ministry strategic planning documents. Efforts are underway to strengthen linkages between planning and funding, as well as align, simplify and harmonize both financial and non-financial key performance indicators across the KV20, the 4-year Kiribati Development Plan, with the Ministries Plans.

Reporting enhancements

Other material enhancements to the budget are:

- Supplementary budgets tabled during the fiscal year are tabled for ease of reference.
- Debt tables, for both external and domestic public debt, have been simplified and easier to read.
- Special Funds balances are reported.
- For the first time, State-Owned Enterprises (SOE) audited financials are being reported.

Of note is that SOE and Special Funds revenues and expenditures are not incorporated into Government fiscal revenues and expenditures however are reported for transparency on sources and uses of public funds.

The Ministry of Finance and Economic Development National Economic Planning Office takes this opportunity to acknowledge and thank all stakeholders for their support during the development of this budget.

Judiciary

Responsible Minister: Minister for Justice

Accounting Officer: Chief Registrar

Ministry Purpose:

The Judiciary is a separate and independent arm of government that relies on the Ministry of Justice (MOJ) as a procedural link to the Executive and the Legislature – the other separate and independent arms of government. As a matter of procedure, it is the MOJ who presents the Judiciary's budget to the Legislature because it is the Legislature who has such jurisdiction to approve budget. Ministry of Justice

Responsible Minister: Minister for Justice

Accounting Officer: Secretary for Justice

Ministry Purpose:

The Ministry of Justice is the lead administrator of justice in Kiribati and therefore responsible to administer legislations, deliver justice services and provides policy support and analysis on justice issues within Kiribati. Its aim is to support good governance provided under the Kiribati Development Plan. The Ministry is committed to consider, analyse and improve services of the institutions responsible for the administration of justice. It is also committed to the improvement and strengthening of institutions that are empowered by law to execute the enforcements and administrations of justice. The Ministry is also responsible for the formulation, adoption, implementation and execution of policies that underpins security concerned to the national interest.

The main strategic functions of the Ministry are:

1. **Customs Administration and Enforcement Department:** The Kiribati Customs Administration & Enforcement (KCAE) is established pursuant to section 8 of the Customs Act 2019. The Comptroller is generally responsible for the movement of cargoes and people into and out of Kiribati. In that respect, Customs is responsible for border control. MOJ will continue to reach out to stakeholders and potential partners for their support with regards to the modernization of border control. The said office was once part of the Ministry of Finance before it was transferred to the MOJ.
2. **Prison Division:** The Office of the Superintendent of Prisons (OSP) is established pursuant to section 5 of the Prisons Ordinance (CAP. 76). The Superintendent is responsible for the general management of prisons and the welfare and rehabilitation of its inmates. The MOJ is in dialogue with relevant stakeholders on ways and measures that will assist MOJ with the improvement of the Corrections and Probation services. Before being transferred to MOJ, OSP was part of the Kiribati Police and Prison Services.
3. **Registrar General Office:** The Office of the Registrar General of Birth, Death and Marriage is responsible for the administration of the Birth, Death and Marriage Ordinance (CAP. 5). Section 3 provides for the appointment of the Registrar General. The said office was often referred to as the Civil Registration Office. As the name connotes, it is responsible for the registration of birth, death and marriage. The Registrar General Office is also responsible for the issuance and implementation of national ID card. MOJ is very much enthusiastic to see that the National Identification Card is issued and legalized. This activity will assist in minimizing the hurdles faced with election, records of citizenship and under age issues and many more. The Office was transferred from the Ministry of Women, Youth and Social Affairs.
4. **Human Rights Division:** The Human Rights Division does not have a law to support its independence. However, since this is a stand-alone subject matter, the MOJ is very, much committed to see that this office continues to focus on human rights without any reservations. The Human Rights Division is responsible for the implementation and reporting on the international or UN Conventions that underpins human rights which Kiribati has ratified and acceded to. The Division used to be under the Ministry for Women, Youth and Social Welfare before its transfer to MOJ.
5. **Office of the People's Lawyer:** The Office of the People's Lawyer (OPL) is responsible for the provision of legal aid and services to the members of the community who are not in a position to afford those through the private lawyers. MOJ is committed to ensure that the OPL is allowed to deliver their services without hindrances as such has implemented the passing of the OPL's Act in 2018 known as the Legal Public Services allowing the office to extend its roles and services. OPL was once independent for two years when it first separated from the Judiciary.
6. **Kiritimati Division:** This is an extension Division of the Correctional Division. Its services are the same with that of the Correctional Division but implementing it in Kiritimati Island.
7. **Election Unit:** This Unit is focused on Election activity for Councillors and Mayors election but most importantly the upcoming 2020 National Election.

The Ministry of Justice is allocated a total of **\$3,577,920** for Departmental Expenditures in the 2020 Budget.
